6. The Student Experience (4 pages)

All the students who took admission in higher education had to face many problems due to lack of college in Tal Nagar. And more than half of the students did not even enter higher education or left studies in between. Because there was no college, the students had to go far apart. Because of this, the guardian classes too were hesitant to continue their children's education smoothly. Especially the guardian's guardian.

As soon as the Government College opened in TAL Nagar, the residents were very happy and students of 10 higher secondary schools were very happy about this college. And with great enthusiasm, students took admission in the college. Enrolling registration in the college itself is a witness which is continuously increasing. At present, the second session is underway, the registration number has reached 184 whereas only the arts faculty classes are operated here. If the science and commerce faculty is opened here, this number can be more than three times and students will not have to travel for study elsewhere. Today the students admitted in the art faculty are feeling very good here. All the students are feeling good by learning from the government-run syllabus, such as the National Service Scheme, through the National Service, Red Ribbon through Health Awareness, Personality Development Cell, to understand the importance of Personality Development Through the career guidance program, learning from different beneficial program colleges including their own career building, all the students are doing other good experiences.

All these students are getting an education degree, they also get good results. After completing the degree, all the academics are moving forward towards building their own bright future, as well as being at the local level, students and their parents are also experiencing a good experience and all hope is that in the near future all the faculty will be established here. Even today, more than half of the students who are migrating abroad should not stay away from other places.

7. Student Achievements (5 pages)

The college was established in 2014 and in the beginning session 2015-16. Students have achieved many achievements in these two sessions, along with studies, the students have assimilated the importance of social service, nation service, public awareness programs, national festival, and ways of celebrating etc. Besides, along with better examination results, students have participated in the activities of participants Are also performing well at higher levels such as National Service Scheme, including various platforms

8. Research Activities (4 pages)

Research project work is unsure in the session 2016-17 as no new research activity is being conducted due to new college.

9. Human Resources (2 pages)

Human Resource Management (HRM) is a skillful and consistent approach to managing the assets of one of the most valuable assets of an establishment - those who are working there and are contributing in the achievement of business and objectives in a personal and collective way. The term "human resources management" and "human resources" (HR) have been replaced by the term "personnel management", which explains the processes involved in managing people in the establishment. [1] Meaning of HRM in general To give employment to people, develop their resources, use them, keep their services in line with the need of work and the need and in return (maintenance) compensation is to be given.

But these traditional expressions are rarely seen in theoretical rule. Many times, employee and industrial relations have also been listed as susceptible synonyms, [4] although they are usually referred to for management and management of employees and for dealing in employees' company.

Theoretical discipline is primarily based on the assumption that employees are individuals who have different goals and needs and should not be thought of as basic business resources like trucks and filing cabinets. A positive attitude is adopted towards the employees in this area, assuming that almost all employees desire productivity contribution in the enterprise and the main constraints in their efforts are the lack of knowledge, inadequate training and the failure of the process.

Newbie professionals working in the field of Human Resource Management (HRM) are seen as more innovative approaches than the traditional approach of management. Its techniques force managers of an enterprise to express their goals in such a way as to be understood and adopted by the employees and to provide them the necessary resources for successful execution of fixed tasks. Thus when HRM techniques are implemented properly, they are indicative of the effect of the enterprise's goals and overall operating practices. Many people in the HRM play an important role in reducing risks in establishments.

The aim of Human Resource Management is to help employees to maintain, maintain, and manage their skills effectively in an organization. The appropriate word here is probably "planning", e.g. Looking for an HRM approach is to ensure planning between the employees of an establishment and the company's overall diplomatic direction.

The basic premise of HRM's academic theory is that man is not a machine, so we need to examine the internal discipline of the people at the workplace. Fields like postmodernism, industrial engineering, industrial, judicial / seminary studies and institutional psychology, industrial relations, sociology and key principles: postmodernism, post-structuralism play a major role. Many colleges and universities have undergraduate and post-graduate courses in human resources management.

There are different types of careers available in HRM. HRM has many jobs related to information such as Human Resources Assistant. There are employment, recruitment and placement planning in the career, which are usually organized by interviewers, EEO (Equal Employment Opportunity) specialists or college employers. Training and development expertise is often conducted by trainers and orientation experts. Compensation and interests are handled by compensation analysts, wage administrators and profit administrators.

Various activities in the functions of Human Resource Management (HRM), in which this important decision is mainly about how many staff you need and whether to meet those requirements, need to take service of employees on independent contractors or hire, recruitment and Ensuring best employee training, high performance, dealing with issues of performance and managing your employees and management. Methods include ensuring conformity with the rules. Activities include management of employee's interests and compensation, employee records and your access to personnel policies. Generally small businesses (profitable or non-profitable)

have to do these activities themselves because they are currently unable to afford full-time or short-term assistance. However, he should always be sure that the employees were aware of the personnel policies according to the existing rules-and live. These policies often remain in the form of employee manuals which all employees have.

10.Events and Initiatives (5 pages)

Government College Tal has given good results by participating in many competitions from the initial session, along with the achievement of education, through development of personality through social services and social service has contributed significantly in education. 16 students of the college have got district-level National Service Scheme Special camp organized by doing good work in Dhauwas. Encouraged in various activities of National Service Scheme in the above camp. Gram Panchayat PanthPipalud by organizing and organizing Sanitary Campaign, Voting Awareness Campaign, Beti Bachao Abhiyan, Beti Padhao Abhiyan, Honey Prohibition Campaign, Smokeless Campaign, etc. by participating in a seven day special camp organized in the same village Panthapipluda. Made all citizens aware of For this, the volunteers organized awareness rally, Shramdan, street drama, and home-home, to make citizens aware by making intensive contact.

Through the same activities, through the routine activities, all the citizens of the city council are aware of the above activities. Apart from this, participating in departmental disciplines performed excellent.

The result of this college has been more than 90%. Students will still be able to get a degree, in the remaining years 2017-18.

Date on which all applicable fields of the Data Collection Format for the All India Survey of Higher Education were completed and submitted _____ 11.03.2017 _____

Instructions

- All data is to be reported as on 30th September of the current year.
- Postgraduate courses refer to courses at the Masters and MPhil level.
- The number of sanctioned seats is the number of students the college is authorized, by the UGC/DHE/affiliating University, to admit in the first year of its degree programs.
- The number of sanctioned faculty posts is the number of faculty the college is authorized, by the UGC/DHE/affiliating University, to recruit on a full-time basis.
- Enrolment is defined as the number of students who have paid their admission fees for joining a degree program by September 30 of the respective academic year.

- Admission is defined as the number of students who have paid their admission fees for joining a degree program, in the first year, by September 30 of the respective academic year and who have never been enrolled in that degree program previously.
- Other Reserved Categories include all categories of students (for e.g. sports quota, extracurricular quota, residents of Jammu and Kashmir etc.) for whom a fixed percentage of sanctioned seats are reserved.
- Examination results are to be reported for examinations held in the previous academic year, and the results for which were declared by 30th September of the current year.
- Allowed to keep terms refers to students who did not pass all subjects in the previous year but were allowed to transition to the next year of their respective degree programs.
- Regular faculty refers to faculty employed on open-ended, full-time contracts as per UGC norms.
- Contract faculty refers to faculty employed on fixed term, full-time contracts as per UGC norms.
- Guest Lecturers refers to faculty employed on a per lecture or per day basis as per UGC norms.
- Data on scholarships is to be reported on all scholarships awarded between 1st October of the previous year and 30th September of the current year.
- A hostel seat is considered occupied if a student has been allotted a seat in the hostel and the student, to whom the seat was allotted, has paid the hostel fee for the current academic year.
- Examination results refers to the average score obtained by a student, in the respective academic year, across all exams that are used to assess whether the student has met the requirement of the degree program in which he/she is enrolled.
- Student tracking refers to having up to date contact information (mobile phone and/or email address) and status (employment, unemployed, in formal education or training, not in the labour market/other) for each student for up to six from the end of the academic year when the student passed out (graduated).
- Externally funded research and consultancies refer to research and/or development funded through consultancy contracts or partnerships with a sponsor or purchaser who is external to the institution.
- A peer-reviewed journal is one that subjects an author's research to review and evaluation by others who are experts in the same field, before the research is published.
- An international journal is one that has an International Standard Serial Number (ISSN) issued by the ISSN International Centre.
- A paper is said to be published through cross-institute research collaboration if the primary affiliation of at least two authors is to different colleges/institutions.
- The institutional performance indicators common across all institutions can be found in the PIP. Institution-specific performance indicators can be found in the MOU signed between the Institution and the Department of Higher Education.
- The standard Chart of Accounts refers to the standard format for audit reports as notified by the Department of Higher Education through its orders.
