## 8. Construction and Best Practices

- (1) To develop this institute as centre of rural area students.
- (2) .To develop the institution for ful-fillment of need of human education.
- (3) To develop college for providing courses with employable opportunity
- (4) To improve the equity by providing the opportunity the weaker section of society.

(5) To develop this institution as the pioneer institutions in education of the rural region.

## 9. SWOC Analysis (strength , weaknesses, Opportunity and Challenges

### **Strength-**

- (i) 95% guest faculty is well qualified.
- (ii).It is a leading educational centre that fulfils the need of weaker section of societies such SC/ST/OBC and minorities.

### **Weaknesses-**

- (1) Since it a Govt. Institution & the guest faculty has been transferred time to time, because of which some odd situation of teaching may be created..
- (2) In Govt. college no. of teaching posts is decided by the states Govt. Our college has been number of sanctioned posts not in appropriate ratio to met with the demands of increasing strength of students
- (3) Our institution is having less number of vocational/ certificate courses under self financing scheme.

### **Opportunity**

- (1) To develop in such a way that the institution meet the requirement of increasing strength every year.
- (2) To demand to Department of higher Education, Govt. of M.P. /Janbhagidari for new posts of teaching as well as non-teaching staff as per requirement.
- (3) Mau District- Bhind is a rural place. New & vocational courses/ certificate courses may be designed & implemented for the fulfilment of need of students in this region and to increase the rate of employment

### **Threats**

- (1) The procure new area for the College as strength of the students is increasing every year and at present college campus is not sufficient enough to met with the requirement and with the increasing liability.
- (2) Location of institution is another threat. It is far away from the township because of which students especially girls face problem to reach college.

## 10. Looking Ahead (3 pages) Future Plans

Lays out the college's priorities and goals over the coming year. Describes key initiatives planned, what each initiative is expected to achieve, and how it will contribute to the college's long term development.

### **Institutional Development.**

The strategy for the remaining plan period of Govt. College Mau, Bhind rests on the guiding principles, namely, access, equity and excellence.

### **Strategic Plan towards Enhanced Access to Higher Education**

The strategy of college is to increase student intake not only by introducing new courses and programmes but also by expanding the existing programmes through investment in infrastructural facilities and other basic requirements.

### **The strategic plan lays emphasis on:**

### **Construction classroom, Lab. and Lib.**

- The Construction classroom, Lib. and Lab. sufficient for introducing new and relevant courses and programmes and to expand the existing programmes. The existing class rooms are designed to accommodate just 40 to 50 students on average. To introduce interdisciplinary and multidisciplinary programmes, we require class rooms of large size. It also necessitates more lab space, space for ladies room, gents common room, etc.

- **Expanding Hostel Facilities**

At the moment, the college has no hostel whereas the college needs at least two hostels one for boys and one for girls. If we have to attract more number of students from remote places and also from other places, the hostel facility has to be enhanced.

- **Library Facilities**

However, the college has no library building its own but accommodate the books properly with an easy access for the readers. The reading room is also very compulsory for the voracious readers. Therefore, there is an urgent need for improving the library facilities by considering the contemporary requirements.

- **Computer Facilities, Provision of Teaching Aids and Audi-visual Facilities.**

Enhancing access to quality higher education means providing opportunity in terms of higher access to computer facilities, teaching and audio -visual aids. The existing facilities in the computer lab. established very necessary. The class rooms are to be equipped with modern amenities/equipments to facilitate teaching learning process.
